USE OF STANDARD FORM 1113 IN CONNECTION WITH STANDARD FORM 1058

I. GENERAL: Circular letter No. A-24222 addressed by Frank L. Yates, Acting Comptroller General of the United States, dated July 17, 1944, to the heads of Government Departments, independent establishments and others concerned, which is self-explanatory, is quoted below:

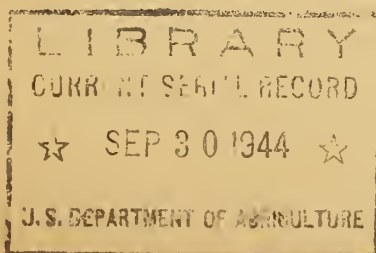

"1. The supply of old freight transportation voucher forms, Standard Forms Nos. 1068a, 1068b, and 1068c, heretofore furnished the carriers without charge for use in the billing of the old Government bill of lading, Standard Form No. 1058, has been exhausted at the Government Printing Office and no additional supply will be printed in view of the adoption of the new transportation voucher, Standard Form No. 1113, and the procedure therefor, prescribed in General Regulations No. 97 and Supplement No. 1 thereto.

"2. There are, however, a number of old Government bills of lading, Standard Form No. 1058, issued for use prior to July 1, 1944, in the hands of the carriers or in the process of being completed and surrendered for billing. Those carriers which do not have on hand a sufficient supply of the old voucher forms on which to bill such delayed old bills of lading may use the new transportation voucher, Standard Form No. 1113, provided there is shown on the face of each old bill of lading so billed or on a separate sheet attached thereto, the data now required on the new Government bill of lading, Standard Form No. 1103, in the box headed "For Use of Destination Carrier Only," namely, Class, Rate (Gross and Net), and Charges. Also in cases where land-grant deductions are involved, the basis or formula of arriving at the net amount claimed must be shown on a separate sheet attached to the old bill of lading, unless said information has been previously furnished.

"3. The carriers are being advised of the above and disbursing officers paying transportation vouchers may be governed accordingly."

II. VOUCHER EXAMINATION: Voucher examiners shall verify that the information required on the new Bill of Lading, Standard Form 1103, referred to above is submitted in support of each Standard Form 1058 when billed on Standard Form 1113. When such information is missing the examiner shall return the voucher to the carrier for completion.
